Purple Shades

Dragon Wing Begonias

Begonia X hybrida

Dragon Wing™ delivers excellent garden performance across a wide range of conditions. With a unique beautiful arching, pendulous habit, this spectacular plant adapts well to hanging baskets, large containers and in-ground plantings. Outstanding heat tolerance provides lush, vigorous growth. Dragon Wing offers a dramatically different look from standard begonias. Dragon Wing grows 12 to 15" tall and spreads up to 18".

Begonias

Big Series

Begonia x benariensis

(Available Aug-May)

Large 2-3" flowers are held above the leaves for maximum show and can reach a height of 20" and 15" wide. The bronze foliage adds vibrancy and contrast to the striking red or rose colored flowers. Characterized by its upright arching habit, 'BIG' begonias make a stately presentation in park settings and large landscape plantings from full sun to shade.

Bronze Leaf Rose

Green Leaf White

Green Leaf Red

Green Leaf Pink

Bronze Leaf White

Begonia Odorata 'Alba'

This begonia is noted for its ability to handle strong sun, while doing just as well in the shade. It features white flowers with a delicate fragrance and glossy green foliage. Grow up to 3' tall and 3' wide.

White

Bush Daisy

(Euryops)

Euryops pectinatus

Euryops, Yellow Bush Daisy, or African Yellow Daisy is a marvelous addition to any garden that has a well-drained, full sun situation. This is a plant that provides sunny, yellow daisy-like flower color against a mat of appealing finely cut green foliage all season long. It is a tough plant that survives all but the most extreme warm weather conditions including moderate drought. Grows 14-18" tall. Not cold hardy.

Cyclamen

Cyclamen persicum

"Dreamscapes"

Dreamscape cyclamen has great landscape performance and is the best of any cyclamen for outdoor use. Landscapers can plant cyclamen in the ground and count on better, longer performance. Grows in full sun to partial shade. Grows 6-9" in height and width 9-13" tall. Available Jan-Feb.

Celosia Intenz

Celosia argentea plumosa

Celosia Intenz is great in containers, beds and large landscapes. Celosia Intenz flowers under adverse garden conditions like heat, humidity and infrequent watering. Fantastic performer under hot and humid conditions that make a perfect choice for landscaping. Minimal nitrogen needed during growing period, less fertilizer and irrigation needed. Grows up to 18" in height and 12" in width and requires full sun.

Lipstick

Dark Purple

Cuphea Floriglory Series

Cuphea hyssopifolia

Cuphea, commonly known as Mexican Heather, is an ideal plant for borders, mass plantings and containers. FloriGlory was highly praised by the AAS Judges for its larger flowers, impressive number of flowers and the darker, more intensely colored magenta flowers. The dark green foliage complement the flowers and really makes a statement for this new AAS Winner. With FloriGlory your customers will be delighted with the compact (10-12 inch) size, longer flowering time, heat and weather tolerance.

Sofia

Dianthus Dart Series

Dianthus barbatus interspecific

The Dart Series is a compact well branched series for containers and flower beds. Compact and more basally branched than the Jolt Series. Strong, straight stems hold bright, fragrant blooms that are long-lasting. Grows 6-12" in height and 6-8" wide. Requires full sun to partial sun and are Drought tolerant.

Pink Magician

Raspberry

White

Duranta "Gold Mound"

An award-winning Landscape Elite™ upright shrub with bright yellow and green foliage that is a perfect addition to any landscape or containers. Variegated yellow and green foliage. Light blue tubular flowers will appear from July to October. Heat and sun loving. Grows 10-24" tall.

Dusty Miller Silverdust/New Look

Senecio cineraria

Finely cut, silvery white, velvety foliage on uniform plants. The striking leaves are superb for adding contrast and texture to beds and borders. Grows 6-10" tall and 10" wide. Requires full sun. Do not overwater.

Hypoestes "Confetti Series"

Hypoestes phylllostachya

Hypoestes can be used as an indoor plant and works equally well outdoors where it can compliment other annuals. The Confetti series are compact, heat tolerant and shade tolerant. They grow 6-8" in height and 4-6" wide. Grows best in partial shade.

Mixed

Evolvulus (Blue Daze)

Evolvulus glomeratus

Evolvulus, or blue daze, is an evergreen subshrub that grows in a low, spreading mound, up to 2-3 ft. in diameter, but no more than 1 ft. tall. Evolvulus grows well in full sun & in poor sandy soils that are well drained. It cannot tolerate wet soils at all, and very rainy periods or overwatering will cause fungus problems and lead to premature death.

Impatiens "Beacon Series"

Impatiens walleriana

Beacon impatiens exhibits high resistance to downy mildew. Beacon impatiens offers the opportunity to bring back into production a well-known, in-demand, easy-to-grow and versatile product for increased sales. Extensive trialing has proven that Beacon impatiens provides genetic high resistance to downy mildew. Grows best in partial shade to shade with a height of 14-18" and 12-14" in width. Fast-filling, season-long color for gardens and landscapes.

Geraniums

Galaxy Series

Pelargonium x hortorum

The new Galaxy geraniums produce mounded plants that are vigorous enough to keep their large, semi-double blooms all season in large containers and landscapes, driving higher sales at retail and creating satisfied gardeners. Superior garden performance when compared to other vigorous, green-leaf zonal geraniums. Grow up to 16-20" in height & 16-20" in width.

Red Heart

New!

Lantana

Lantana Camara

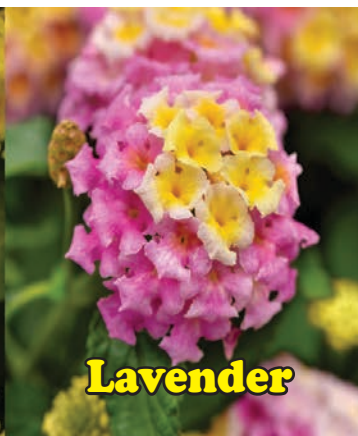

Shamrock Series

New!

The Shamrock series is characterized by its compact, mounded growth habit, vibrant continuous blooms with resilience to heat and drought. These cultivars are popular for their ability to attract pollinators such as butterflies and bees. This series generally features plants that reach a mature height of 10-18 inches and a spread of 12-24 inches. They thrive in full sun with well-drained soil, tolerating poor or sandy conditions and are notably deer and rabbit resistant.

Kalanchoe

Kalanchoe blossfeldiana

Kalanchoe is a succulent herb of the jade plant family (Crassulaceae) from Madagascar. Plants produce upright stems and grow to a foot tall. Give them good light and water on a weekly basis and you should have good blooms for as long as eight weeks. Available Jan 2025 & some colors are very limited in supply.

Marigolds

Durango Series (French)

Tagetes patula

The highest quality anemone-type marigolds. Durangos deliver more blooms, stronger stems, and better uniformity than other marigolds of this type. Extra large, 2-2 1/2" solid and bicolor blooms are yellow, gold, orange and mahogany-red. The 10-12" plants are drought and disease tolerant. Plant in full sun.

Marigolds "Happy Series" (French)

Happy marigold is a genetically dwarf type to withstand heat in the landscape. More uniform between the colors with the extra vigor needed to perform in the landscape. Flower size is also larger and just the right amount of vigor to perform beautifully in hot, harsh garden conditions. Grows 6-7" in height and 6-8" in width. Full sun. Available Feb 2025.

Little Ducks (African)

Tagetes erecta

Yellow

"Little Duck" Orange and Yellow" are the most compact, natural dwarf varieties available. Tidy plants with outstanding, fully double, bright flowers that sit on top of dark green foliage. Plants are very uniform with strong peduncles enabling easy shipping. The "Little Ducks" have tube shaped, tightly clustered petals and are suitable for pots, beds and mass plantings. Sturdy plants grow 6-10" tall just right for sunny beds and borders.

Mona Lavender

Plectranthus

Very free-flowering with excellent heat and drought tolerance, the plants put on an intense color display in mixed containers and landscapes. Upright plants feature flower spikes covered with dark lavender florets similar to mini-orchids, over fuzzy, dark green foliage that is a rich purple color on the underside. Grows 12-16" tall and 24" wide. Grows in partial shade.

New Guinea Impatiens Harmony Series

Impatiens x hawkeri

Harmony New Guinea Impatiens are very well branched with uniform compact growth. Harmony's have large round flowers with excellent garden performance. We recommend the Harmony Series to be used in partial shade. Grows 10-18" tall and 12-16" wide.

For full sun we recommend using the Sunpatiens.

Sunpatiens

Impatiens x hybrida hort

Sunpatiens are a revolutionary hybrid impatiens that thrives in sun and takes the heat. Sunpatiens are the result of an intense breeding program that has spanned many years and has been tested the world over. Strong weather tolerant plants that hold up well to wind and rain while thicker petals and foliage are less prone to disease. Grows 14-36" tall and wide in the garden. Make sure you have good irrigation. Sunpatiens are Downey Mildew resistant.

New!!

Pentas

Pentas lanceolata

"Dwarf Pentas"

This new series has a well-branched, compact habit and also has eliminated the cyclic blooming. Follow-up blooms don't eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal effort. These naturally well branched pentas form mounds of flowers in the garden and blankets containers for highest consumer demand. Height: 12-15", 10-14" spread.

Sedum Angelina

Sedum hybrid

Sedum rupestre 'Angelina' is an evergreen perennial that adds some pizzazz to winter landscapes. This low growing plant performs well in sunny, well-drained spots in the landscape but will also tolerate some shade. In the summer, the foliage is a brilliant chartreuse but after a few cold snaps it takes on a coppery bronze tinge that brightens up winter landscapes.

Petunias

Pretty Grand Series

Petunia x hybrida

This new, naturally compact grandiflora petunia series was bred for great field performance. Its tightly branched habit and short internodes will shine at retail with less stretch and extended shelf life. Additionally, these tidy plants are vigorous in the landscape and require less maintenance for gardeners. Requires full sun. Grows 12-14" in height and 14-16" in width.

Salvia Mysty

Salvia longispicata X farinacea

This compact salvia is about 25 to 35% less vigorous than Mystic Spires, making it a better variety for mixes. Covered with true blue flowers all season, the dark green-leaved plants are naturally more compact, well-branched and very free-flowering. Heat-hardy plants are great for late Spring/Summer programs and attracts butterflies. Grows 12-18" tall and 12-18" wide in sun to partial shade.

Salvia Vista Series

Salvia splendens

The Vista series produces a large number of densely placed bright colored flowers above dark green foliage. It is day length neutral and performs splendidly in the garden. Garden height: 8-10 in. & width 8-10 in. Can take sun in Florida's fall and winter but grows best in partial shade. Protect from frost.

Snapdragons Candy Tops Series

Antirrhinum Majus-dwarf F1

Candy Tops is a show stopper with strong and full spikes that hold up for better shipping and ultimate retail appeal. An abundance of blooms on dwarf plants means constant color with a sweet fragrance. Grows 7-8" tall and 6" wide & requires full sun.

Pansy Delta Pro Series Series

Viola x wittrockiana

Pansies are the cold weather plant of choice for late fall, winter and early spring color. They are exceptionally hardy and will thrive in the cool southern winter months. These pansies have large, thick-petaled, 3.5-in. flowers. Deltas makes high-impact landscapes and Frost tolerant and low maintenance. Grow up to 8" in height and 8 - 10" in width.

Requires sun to partial shade. Available 12-1.

Violas Penny Series

Viola x hybrid

Penny violas are more heat tolerance than standard violas. This alternative to pansies comes in a number of eye-catching and unique colors that are extremely versatile. Grows 4-6" tall and 6-8" wide. Full sun to partial shade. Available starting 12-1.

Verbena "Vanessa Series"

Verbena x hortensis

Vanessa™ Compact Verbena was specifically bred for mildew resistance and continuous bloom times. This one offers a more compact habit that mounds and trails, making it perfect for containers and flower beds. Grows 8" in height and up to 14" in width and requires sun to partial sun. Vanessa also great addition for a butterfly garden.

Vinca "Cora XDR Series"

Catharanthus roseus

The Cora XDR offers season-long flowering and survival in landscape plantings. Highly resistant to ten of the most virulent isolates of *Phytophthora nicotianae* that cause *Phytophthora* blight on annual vinca. Easier to grow with improved branching, uniformity, and floriferousness. Grows 12-16" high and 12-16" wide. Grows best in full sun. Vinca will need to be mulched as a preventative to keep splashing water from spreading disease such as Aerial Phytophthora.
