Begonias

"Dragon Wing" Begonias

Begonia X hybrida

(Available Jan-May & Aug-Dec)

Dragon Wing™ delivers excellent garden performance across a wide range of conditions. With a unique beautiful arching, pendulous habit, this spectacular plant adapts well to hanging baskets, large containers and in-ground plantings. Outstanding heat tolerance provides lush, vigorous growth. Dragon Wing offers a dramatically different look from standard begonias. Dragon Wing grows 12 to 15" tall and spreads up to 18".

Begonia Odorata "Alba"

This begonia is noted for its ability to handle strong sun, while doing just as well in the shade. It features white flowers with a delicate fragrance and glossy green foliage. Grows up to 3' tall and 3' wide.

Bush Daisy Athena Sun (Euryops)

Euryops pectinatus

Euryops, yellow bush daisy, or African Yellow Daisy is a marvelous addition to any garden that has a well-drained, full sun situation. This is a plant that provides sunny, yellow daisy-like flower color against a mat of appealing finely cut green foliage all season long. It is a tough plant that survives all but the most extreme warm weather conditions including moderate drought. Grows 14-18" tall. Not cold hardy.

Cannas "Cannova & Pacific Series"

Canna x generalis

Cannova Series Cannas are dwarf from seed and can take full sun, high temperatures and grows to 30-40" in height with 3-4" flowers. Everyone's favorite for garden-size Cannas that bloom in no time. The compact size, large blooms, and ready flowering makes these plants stand out in the sunny garden.

Caladiums

Fancy Leaf Varieties

Fancy leaf caladiums tend to be taller and have larger heart shape leaves. Grow 12-20" tall. The varieties below can grow in full sun to partial shade.

Candidum Jr.

Carolyn Whorton

Fantasy

Moonlight

Red Flash

Spring Fling

Strap Leaf Varieties

Strap Leaf varieties tend to be more compact than Fancy leaf and also have smaller leaves. Strap Leaf caladiums can withstand more sunlight and typically last longer. They do require water and don't like to dry out. Grows 8-16".

Coleus (Sterile)

Solenostemon scutellarioides

These vegetative sterile coleus are as durable as it gets compared to seed varieties. Now breeders have successfully created varieties that can be grown in the sunniest spot in the garden with wonderful bright colors. Please note that some coleus colors can change color depending on amount of sunlight.

Flame Thrower Series

Flame Throwers are bold, heat-inspired foliage in orange to red, thrives in part shade, low maintenance, Grows 12-18" in height and 12-18" wide..

Adobo Pink

Salsa Verde

Spitfire

Sriracha

Crossandra

"Orange Marmalade"

Crossandra infundibuliformis

Heat-tolerant Crossandra Marmalade blooms continuously in full sun to partial shade making it a premium landscape plant in tropical and semi-tropical areas. Grows 14-24".

Cuphea Floriglory

Cuphea hyssopifolia

Cuphea, commonly known as Mexican Heather, is an ideal plant for borders, mass plantings and containers. FloriGlory was highly praised by the AAS Judges for its larger flowers, impressive number of flowers and the darker, more intensely colored magenta flowers. The dark green foliage complement the flowers and really makes a statement for this new AAS Winner. With FloriGlory your customers will be delighted with the compact (10-12 inch) size, longer flowering time, heat and weather tolerance.

Celosia Dragons Breath

Celosia argentea plumosa

The industry cannot get enough of the unique green-red foliage and blazing-red, long-lasting flowers of Dragon's Breath Red celosia. Dragon's Breath is great in containers, beds and large landscapes. Dragon's Breath exhibits even more red foliage and flowers under adverse garden conditions like heat, humidity and infrequent watering. Fantastic performer under hot and humid conditions that make a perfect choice for landscaping for bright red color with gorgeous flowering plumes. Minimal nitrogen needed during growing period, less fertilizer and irrigation needed. Grows up to 24" in height and 16" in width and requires full sun. **Limited Supply.**

Duranta "Gold Mound"

Duranta repens

An award-winning Landscape Elite™ upright shrub with bright yellow and green foliage that is a perfect addition to any landscape or containers. Variegated yellow and green foliage. Light blue tubular flowers will appear from July to

Evolvulus (Blue Daze)

Evolvulus glomeratus

Evolvulus, or blue daze, is an evergreen subshrub that grows in a low, spreading mound, up to 2-3 ft. in diameter, but no more than 1 ft. tall. Evolvulus grows well in full sun & in poor sandy soils that are well drained. It cannot tolerate wet soils at all, and very rainy periods or overwatering will cause fungus problems and lead to premature death.

Ipomoea

Ipomoea batatas

Spotlight Series

The first compact ipomoea series offers popular heart and cut-shaped leaf varieties! Spotlight's compact, naturally branched habit is ideal for packs and small pots. Great for mixes too. The series features bold, eye-catching colors and holds its color in extreme heat. Grows 8-10" in height and 16-20" in width. It is a great compact solution for southern regions.

Black Heart

Lime Heart

Red Heart

Lantana

Lantana Camara

Shamrock Series

The Shamrock series is characterized by its compact, mounded growth habit, vibrant continuous blooms with resilience to heat and drought. These cultivars are popular for their ability to attract pollinators such as butterflies and bees. This series generally features plants that reach a mature height of 10-18 inches and a spread of 12-24 inches. They thrive in full sun with well-drained soil, tolerating poor or sandy conditions and are notably deer and rabbit resistant.

Marigolds

Marigolds "Happy Series" (French)

Happy marigold is a genetically dwarf type to withstand heat in the landscape. More uniform between the colors with the extra vigor needed to perform in the landscape. Flower size is also larger and just the right amount of vigor to perform beautifully in hot, harsh garden conditions. Grows 6-7" in height and 6-8" in width. Full sun.

Mona Lavender

Plectranthus

Very free-flowering with excellent heat and drought tolerance, the plants put on an intense color display in mixed containers and landscapes. Upright plants feature flower spikes covered with dark lavender florets similar to mini-orchids, over fuzzy, dark green foliage that is a rich purple color on the underside. Grows 12-16" tall and 24" wide. Grows in partial shade.

Pentas

Pentas lanceolata

"Northern Lights"

'Northern Lights Lavender' is a true breeding breakthrough in Pentas. More tolerant to cooler growing temperatures, more tolerant to low pH levels and equally free flowering in hot or cool landscape settings makes 'Northern Lights Lavender' a standout in traditional southern locales and brings a new dimension to northern settings. Grows in full sun to partial shade. Grows 14-24" tall and 12-24" wide.

Pentas

“Butterfly Series Pentas”

Pentas lanceolata

With its hybrid vigor, Butterfly produces larger flowers and umbels, withstands stressful conditions and shows better garden performance than other commercial seed varieties. Trials show it is about 20% larger than other seed varieties. Planted outdoors, Butterfly grows fast and finishes fuller and larger. Grows 12- 22” tall and 12-16” wide. Full sun to partial shade.

Deep Pink

Deep Rose

Orchid

Cherry Red

White

“Dwarf Pentas”

These dwarf pentas are well-branched with a compact habit and also has eliminated the cyclic blooming. Follow-up blooms don't eclipse the prior flush, so plants stay compact. These naturally well branched pentas form mounds of flowers in the garden and blankets containers for highest consumer demand. Height: 12-15", 10-14" spread.

Neon Plum

Purslane

"Pazzaz Nano Series"

Pazzaz Nano purslane loves tough conditions and showing gorgeous bright-colored flowers in abundance. Pazzaz purslane also flower longer during the day compared to others and has mounding habit. Requires full sun, are drought tolerant and loves the heat. Grows 4-6" tall and spreads up to 18".

Sedum Angelina

Sedum hybrid

Sedum rupestre 'Angelina' is an evergreen perennial that adds some pizzazz to winter landscapes. This low growing plant performs well in sunny, well-drained spots in the landscape but will also tolerate some shade. In the summer, the foliage is a brilliant chartreuse but after a few cold snaps it takes on a coppery bronze tinge that brightens up winter landscapes.

Sunpatiens

Impatiens x hybrida hort

Sunpatiens are a revolutionary hybrid impatiens that thrives in sun and takes the heat. Sunpatiens are the result of an intense breeding program that has spanned many years and has been tested the world over. Strong weather tolerant plants that hold up well to wind and rain while thicker petals and foliage are less prone to disease. Grows 14-36" tall and wide in the garden.

Vinca

"Cora XDR Series"

Catharanthus roseus

The Cora XDR offers season-long flowering and survival in landscape plantings. Highly resistant to ten of the most virulent isolates of *Phytophthora nicotianae* that cause *Phytophthora* blight on annual vinca. Easier to grow with improved branching, uniformity, and floriferousness. Grows 12-16" high and 12-16" wide. Grows best in full sun. Vinca will need to be mulched as a preventative to keep splashing water from spreading disease such as Aerial Phytophthora.

Salvia Mysty

Salvia longispicata X farinacea

This compact salvia is about 25 to 35% less vigorous than Mystic Spires, making it a better variety for mixes. Covered with true blue flowers all season, the dark green-leaved plants are naturally more compact, well-branched and very free-flowering. Heat-hardy plants are great for late Spring/Summer programs and attracts butterflies. Grows 12-18" tall and 12-18" wide.

Salvia Mystical

Salvia farinacea

Bring vibrant color and reliable performance to sunny landscapes and mixed containers with Mystical™ Blue Salvia, a new variety selected for its naturally compact, full habit and exceptional branching. This heat-loving sage delivers a steady display of rich flower spikes from spring through summer, attracting bees, butterflies, and hummingbirds while standing up to tough garden conditions. Grows 12-18" in height and 12-18" wide. Full Sun.
